Child & forced Labor statement:

Elite RF's Principles on Child and Forced Labor:

Child and forced labor are pervasive problems throughout the world. Unfortunately, there are no effective international agreements that define the practice or create enforcement mechanisms against them. As an employer, Elite RF has an important role to play in these issues. To this end, Elite RF has adopted the following Principles to reinforce its core value of treating all people with dignity and respect:

Principles

- Elite RF will not tolerate the use of child or forced labor.
- We will not tolerate the exploitation of children, their engagement in unacceptably hazardous work, and the physical punishment, abuse, or involuntary servitude of any worker.
- For purposes of these Principles, a "child" is anyone who is less than 15 years of age.
- Elite RF supports temporary workplace internship and apprenticeship education programs for younger persons so long as such persons are closely supervised and their safety, health, and compulsory education are not compromised in any way.
- It is the responsibility of management to implement and ensure compliance with these Principles at Elite RF.
